Re: Modernizing the E-Rate Program for Schools and Libraries, WC Docket No. 13-184

Dear Ms. Dortch:

On November 21, 2013, Ethan Castro, Program Director at EducationSuperHighway and Jim Kohlenberger met with Michael Steffen, Omar Nayeem, Paul Lafontaine and Jack Erb from the Office of Strategic Planning and Policy Analysis and Lisa Hone and Mark Walker from the Wireless Competition Bureau. Evan Marwell, CEO of EducationSuperHighway joined via teleconference. The purpose of the meeting was to discuss the methodology used by EducationSuperHighway to analyze E-Rate Form 471 Item 21 data ("Item 21 data") to inform the Commission's July 23, 2013 Notice of Proposed Rulemaking WC Docket No. 13-184.

During the discussion we reviewed the process by which we collected Item 21 data from applicants, identified the information which was entered into our Item 21 database, and provided an overview of the process by which we coded the data to prepare it for analysis. We also reviewed our sample stratification approach and discussed the time and resources involved in conducting this data collection and analysis process. We did not share any of the specific results of our analysis.

Kindly direct any questions regarding this matter to my attention.

Sincerely,

/s/ Evan Marwell
Evan Marwell
